

WASIM SAJJAD

FULL STACK WEB DEVELOPER

184, Phase 8, DHA, Lahore, Pakistan | hello@asyncvibe.com | www.asyncvibe.com | +923336262610

SUMMARY

I'm a passionate Full-Stack Web Developer with a strong foundation in JavaScript, TypeScript, and modern frameworks like Next.js, React, Node.js, Express and FastApi. I enjoy building fast, scalable, and user-friendly web applications. Recently, I've expanded into AI engineering, working with tools like LangChain, LangGraph, and Hugging Face to build intelligent LLM-powered agents. I'm always eager to learn, solve real-world problems, and collaborate on meaningful projects that push the web forward.

TECHNICAL SKILLS

Next.js	Node.js	MongoDB
React	Express	Python
Javascript	Tailwind CSS	RAG Pipelines
Typescript	Shadcn	Vector DB

PROFESSIONAL EXPERIENCE

AI-Powered E-commerce Intelligence Agent May 2025 - Present

- Built a complete backend system that scrapes data from Amazon and eBay, analyzes reviews using sentiment analysis, and provides product insights using a RAG agent.
- Used FastAPI, MongoDB, and ChromaDB for the backend, with OpenAI APIs to summarize user sentiments, common complaints, and product comparison

MVP for SaaS Dashboard with Admin Panel Feb 2025 - April 2025

- Built a SaaS dashboard MVP using Next.js and TailwindCSS.
- Features include user authentication with JWT, protected routes, real-time analytics dashboard, and Stripe integration.
- The backend is powered by Node.js, Express, and PostgreSQL.

EDUCATION

BS Computer Science Aug 2014 - Oct 2018

Comsats Institute of Information and Technology

- Major in Computer Programing.
- FYP on "Forgery Detection in Documents".

Intermediate May 2012 - May 2014

Punjab College Multan

- Pre-engineering

ADDITIONAL INFORMATION

- **Languages:** English, Urdu, Punjabi.
- **Certifications:**The Complete Node.js Developer Course, React – The Complete Guide (incl. Hooks, Redux), Next.js & React – Build Full Stack Apps with NextAuth & Tailwind, LangChain for LLM App Development, Building AI Agents with Autogen & CrewAI, Python for Data Science & Automation
- **Interests/Activities:** Built and Deployed AI-Powered Agents using LangChain, Autogen, and CrewAI, Share Web Development & AI Insights Regularly on X (@asyncvibe)
